

Creating High Performance Schools

STERIL-AIRE[®]

Steril-Aire UVC can keep occupants healthy while cutting energy and operational costs:

- Eliminates bioaerosols, contaminants and pollutants
- Provides continuous cleaning of coils
- Reduces cooling coil pressure drop helping save fan energy, while improving cooling coil heat transfer efficiency

For additional information on the company and its solutions, please contact Steril-Aire's local representative, Flow Tech, Inc.

FlowTech

10 Bidwell Road • South Windsor, CT

860.291.8886 • 860.291.9908 (f)
