

SMART COIL TECHNOLOGY

THE SMARTEST WAY TO PROTECT AGAINST FREEZE DAMAGE

A SMARTER COIL

The Smart Coil incorporates Freeze Block Technology with a cutting-edge sensor to provide advanced communication with the building automation system in a compact design. Facility staff can stay one-step ahead of potential system issues while protecting the coil, HVAC system and building from freeze and thaw related damages.

THE ONLY COIL DESIGNED TO TAKE PROTECTIVE ACTION AGAINST FREEZE DAMAGE

- Available for new and existing Freeze Block coils
- Compact design allows for installation in tight spaces
- Sensor can be wired to send a signal to the building automation system and programmed to:
 - Turn off the fan
 - Close outside air dampers
 - Open a valve or circulating pump
 - Signal an audio or visual alert at the site or control room
 - Send an alert to your email or cell phone
- 48-months warranty on new coils
- Includes:
 - Valve Adaptor
 - Conductivity Sensor & Wire
 - NEMA 4 Enclosure
 - Transmitter
 - Transformer
 - Terminal Strip
 - Freeze Block Valve (for retrofits)
